Policy # 06-1
Hydrant Water Draws

Adopted or Effective: October 9, 2006
Reviewed or Revised: January 1, 2020

Contractors, or other non-system users, may draw water for their work from Knappa Water Association hydrant(s) with prior authorization of KWA staff. The hydrant location will be specified by the Operations Manager, the first preference being the Allen Road hydrant.

1. The charge for a hydrant water draw is \$10.00-per-day, plus \$5.50-per-thousand-gallons drawn, calculated at the next nearest thousand-gallon increment.
2. The contractor/user must guarantee either an approved air gap (at least twice the diameter of the supply pipe, measured vertically above the overflow rim of the receiving vessel and in accordance with the Oregon Plumbing Specialty Code) and/or use an approved back flow device to be provided by the contractor/user.
3. The contractor/user or his/her representative must sign a note of agreement to these terms prior to first withdrawal and keep an accurate record of dates and gallons withdrawn.
